

**FULLY  
ACCESSIBLE**

## INCLUSIVE BY DESIGN

**A consistent, cost effective and inclusive design that provides a hygienic public restroom for those living with physical disability.**

### FAST FACTS

#### Arrives Fully Assembled

The concrete floor is integrated with the frame and the unit arrives with all accessible changing components ready for connection to prepared foundations making site works quick and easy.

#### Menu of Features

Choose from a comprehensive menu of lifting and changing products to achieve Lift and Change or, Changing Places accreditation.

#### Easy Access

Wheelchair access is easy with cavity sliding doors and user controlled security allowing the user to dictate the time in use.

## 4 GREAT REASONS TO CHOOSE AN EXELOO FULLY ACCESSIBLE UNIT

1

#### Modular Construction

The Exeloo modular system means that **Fully Accessible** installations can add cubicles for other users ensuring a seamless building silhouette.

2

#### Tailor Fit Out to your Budget

Exeloo models can be customized to a basic manual BRONZE level fit out right through to a fully automated PLATINUM level specification that delivers a virtually touchless environment and cubicle wash feature.

3

#### Relocatable

A fully integrated modular construction system means the unit can be disconnected from services and relocated if needed. This preserves the asset investment minimizing demolition and re-construction costs.

4

#### Compact Design

A **Fully Accessible** cubicle is approximately 18' 1" x 9' 10" in size. This small footprint is perfect for playgrounds or any situation where space is a premium.
