

ORBIT

URBAN CHIC WITH A EUROPEAN FLAVOUR

The Orbit design offers cutting edge styling for inner city streetscapes and transit locations

FAST FACTS

Arrives Fully Assembled

The concrete floor is integrated with the frame and arrives ready to be connected to prepared strip foundations making the site works quick and easy.

After Sales Support

Our experts are just a free-phone call away. Exeloo also coordinates a broad network of service technicians ready to assist. See our website for a list of Exeloo approved technicians.

Built to Last

The **ORBIT** unit is crafted from internally and externally galvanized heavy duty steel framing with a stainless steel cladding system interlocked for exceptional strength and durability.

Our components are manufactured from high grade stainless steel and recessed into the wall space for industry leading resilience to vandalism and wear.

4 GREAT REASONS TO CHOOSE AN EXELOO ORBIT

1

Customize To Your Project Requirements

Our **ORBIT** units can be configured as a single or, multi-cubicle layouts. Exeloo has also designed a range of wastewater treatment and pressure pump systems for locations with low pressure services to ensure optimal unit performance.

2

Tailor Fit Out To Your Budget

Exeloo models can be customized to a basic BRONZE level fit out right through to a fully automated PLATINUM level specification that delivers a virtually touchless cubicle environment and a cubicle Auto-Wash feature.

3

Relocatable

A fully integrated modular construction system means the unit can be disconnected from services and relocated if needed. This preserves the asset investment minimizing demolition and re-construction costs.

4

Compact Design

A multiple cubicle **ORBIT** unit is 18'2" x 7'8" in size. This small footprint is perfect for any situation where space is a premium.

INTERIOR FIT OUT FEATURES

Exeloo public restrooms can be configured to meet almost any budget or project requirement. Start with a BRONZE, SILVER, GOLD or PLATINUM level specification and choose from our comprehensive list of fit out options to get the best match for your project needs. **Below are some examples of fit out options available.**
